

## POWER IN YOUR POCKET

Everywhere we turn today there's a mobile device doing more and more for business and pleasure alike. Gone are the days of lugging your laptop with you. Now you can whip your phone out of your pocket (or handbag) and you can be reading your email, browsing the internet, or looking at last month's sales figures. Precious information when and where you need it. What you can do with a mobile device is limited only by your desire to have the information at your fingertips.

**THE KEY TO YOUR FREEDOM** may be today's mobile devices and knowing what information you need while out and about or on the road.. Lets unlock the power of the device in your pocket so you can be where you want to be. **Ask us how to get started.**

**BEST LOVED APPS COMING IN FUTURE NEWSLETTERS.**

## HOW SLOW IS YOUR PC?

### DOES OUTLOOK TAKE MORE THAN 15 SECS TO OPEN?

Slow computers could be costing you time and money, frustrating your employees and causing office conflict. The solution may be as simple as a regular service or it could be something much more sinister. A few simple checks may get you back on track.

**CALL CHRIS AT THE HELPDESK FOR IMMEDIATE ASSISTANCE.**

### HORROR STORIES FROM THE WORKBENCH

#### HAVE YOU EVER SPLIT A COFFEE ON YOUR LAPTOP?

Drinks and laptops definitely don't mix and a drink spilt on a laptop means an almost certain death, but if you have to try it, it's best to have black coffee with no sugar. And call for help **IMMEDIATELY.**
